

# Event Registration Form

Event: Cirque du Soleil Live Entertainment Workshop

Event dates: March 21-23, 2014

We are pleased to announce the first Midwest Cirque du Soleil Live Entertainment Workshop, presented by USITT Midwest Regional Section and hosted by Purdue University. Originally developed at the University of North Carolina School of the Arts on the East Coast and Chapman University on the West Coast, this first Midwest version of the highly popular event provides nearby college students, faculty and staff an extraordinary opportunity to engage industry leading professionals from Cirque du Soleil. Our workshop exists to provide attendees with the opportunity to meet with, learn from, and directly engage these professionals through large-format presentations and a series of Master Classes targeted to a wide variety of disciplines in design and technology.
